TWO FAST PRELIMS. BEFORE MAIN BOUT

Kids and Jack Berton Matched to the Four Rounds Before the Heavy-Heavy Weights Will Also Give

From the way things are shaping at present the bouts which are to be held at the Mechanics Hall on May 24, at the second round of the 100-lb. and 120-lb. classes, will be the last bout ever held in the city. The men who are to be thrown out of the ring will be the lightest and heaviest fighters, at 135 lbs. clean break rules will be in force, and the 100-lb. fighters will be staged.

Another bout will be held on Saturday evening, but the boxer who has already fought in several preliminaries in the city will have to be the best boxer in the nation, an English light weight. Both boxers are to be British citizens, but they are clever youngsters - both out to be a good one.

Another bout will be between 2 local heavy weights is now being arranged, and the boxer who has all his power to make the smoke or lay it down.

Ryan and Decourcey have been training hard for the last few weeks and are in excellent condition, thanks to his clever work.

He is a hard punch in either hand, but a hard punch in either hand, and a decent boxer who has never won, and if this is so, Ryan will have his work cut out to get the best of him.

Decourcey is well known throughout the country, and has won many bouts that have struck these parts.

The bouts will start early and will be held at 8 p.m.

Nationals Defeat Toronto.

Montreal, May 21—Nationals defeated Toronto here yesterday by a score of 4 to 1 in a exhibition game of Lacrosse.

Canadians won the first half, but the locals proved too fast. Léonide does not seem to be in great shape as of yet, but the game was a good one and a better stick handle.

The game was a good one and the men who Con Jones has templed were not too bad, some promising young youngsters.

The Nationals played the same tactics as the Canadians, but outlasted them.

Decourcey, who is laid up with a broken thumb.

HEALTH DEPT. WANTS POWER.

Efforts are being made by the health department to obtain legislation which will enable them after due notice to any person or persons who are deemed dirty or unsanitary and to remove refuse, charging the cost against the person or persons. The fact for such a bylaw was brought to the attention of the commissioners yesterday, and they will submit to the city selector, who will submit the proposal to the city, the matter of one of the future majorities of the commissioners.

Dr. Whitelaw states that while the department has the power to compel persons to clean up, the amount of frequently matter is allowed to accumulate in yards and on vacant lots which are not being used. The health department is nevertheless unsightly and a nuisance. The object of the proposed bylaw is to give the health department and also to enable the department to deal with the difficulty of removing refuse from yards and on vacant lots owned by persons living out of the city and therefore not readily accessible.
